

Visual Education Center

These are the early concepts for the vision and purpose of a Visual Arts Foundation. These concepts drawings serve a twofold function, primarily to share the institutions driving vision and secondly to help obtain funding. We were asked to create these images in order to give a visual form to the written material that the organi-

zations directors had written. These images were then put into a simple presentation to communicate to key people willing to catch the vision and to donate funds in making the vision real. At last count, they were well on their way in achieving their financial goals.

Here are a few of the concept drawings developed from a simple written outline.
