

A typical beautiful summer day at Sand Harbor

Sand Harbor Visitor Center

Located on the Nevada side of beautiful and clear Lake Tahoe, Sand Harbor State Park is one of the area's most popular vacation sites. This stunning pine-laden peninsula has recently undergone some much-needed improvements, one of which is a new visitors' center to better orient, inform and enhance the vacationers' stay. Here is an overview of the interpretive exhibits I designed for that new center.

Below: concept drawings and plans for the exhibit sequence

Final photos of the installed exhibits
